

Abstract:

A DNA molecule is provided which comprises a sequence according to SEQ ID NO: 1 having an open reading frame from base pair 211 to base pair 1740 or having at least 50% homology to the above-indicated sequence, or hybridizing with the above-indicated sequence under stringent conditions, or comprising a sequence which has degenerated to the above-indicated DNA sequence because of the genetic code, the sequence coding for a plant protein having fucosyltransferase activity or being complementary thereto.
